I am pleased to announce the Grand Opening of my new state-of-the-art Laser Vision Correction Center located at 4 Meadow Avenue in Scranton, Pennsylvania.

Conveniently located close to all the major highway systems including Interstates 80, 81, 84, and the Pennsylvania Turnpike, Acuity Laser Eye and Vision Center specializes in LASIK and other vision correction surgery at prices starting as low as \$499\* per eye.

At Acuity Laser Eye & Vision Center our main focus is vision correction surgery. This focus helps create efficiencies that result in low overhead costs. We then pass the savings on to our patients.

Furthermore, once you visit Acuity Laser Eye & Vision Center, and take advantage of a free consultation with an experienced counselor, you will realize three important things.

First, you will appreciate the effort I put into the facilities design. Our facility was designed specifically for LASIK and other refractive surgery, complete with two environmentally controlled surgical suites.

Secondly, I have invested in two technologically advanced excimer laser systems which give us the ability to treat the widest range of refractive correction. No other vision correction surgeon in the area utilizes two distinct excimer laser systems.

Thirdly, and most important is my extensive experience. I am proud to say that I have performed over 15,000 vision correction surgeries since 1994, more than anyone other surgeon currently practicing in Pennsylvania.

My experienced staff and I invite you to call Acuity Laser Eye and Vision Center at (877) 520-EYES (3937) to schedule your free consultation with one of our experienced counselors.

Dr. Steven Vale  
Medical director
